

Corinne's reaction after tasting heart leaved plantain

"I would like to share with you the moment I first tasted MIC Food's plantain banana. It is about my very first impression, and my words at the time. I bring you there, to discover this product with me.

Maria cooks plantain banana in a kitchen next to the assembly hall. A few minutes later, she served me a small plate smoking with some banana plantain slices. The smell is sweet and sugary. It wakes up my taste bud. I don't eat as soon as the plate is on the table, I want to enjoy the moment.. the sensation in my mouth is incomparable: a caramelized sweetness, a melting texture; it gives you an ephemeral sensation but a long pleasure. Consequently, I knew that I would like to propose you this banana."

Corinne Ajinça, company founder.
